MAXPOWER2TM

HIGH PERFORMANCE RUBBER DOOR
The industries only economically priced springless rubber door

DOOR FEATURES

- High performance roll up door ideal for applications in: Manufacturing Facilities, Distribution Centers, Garages
- Galvanized steel components
- Rubber astragal for uneven floors
- Simple, efficient springless engineering with only 5 moving parts providing reliability, and longevity
- Flexible curtain releases from guides upon accidental impact with breakaway system
- High tension curtain withstands high wind loads

our rubber is of the highest quality and durability, which is why we stand behind it with a lifetime guarantee.

- **Corrosion resistant galvanized finish** adds to product longevity
- **The economical solution** for larger openings
- **Impactable rubber doors with a direct drive operation** is perfect for many diverse applications
