MAXSEALTM

VINYL HIGH PERFORMANCE DOOR
Your answer for environment containment and energy savings!

DOOR FEATURES MS150 - MS180

- High speed roll up door ideal for applications in: Warehouses, Manufacturing facilities, distribution centers
- Corrosion resistant aluminum guides for interior and exterior mounting
- Simple, efficient springless engineering with only 5 moving parts providing reliability, and longevity
- Breakaway retractable bottom bar system
- High tension curtain withstands high wind loads - 20psf (88mph winds)
- **Fast operating speeds** (48ips) reduces air infiltration which leads to reduced energy costs and employee safety
- **Increased productivity and traffic flow** due to quick acting functionality
- **Springless operation** reduces maintenance and repair costs and eliminates safety concerns associated with springs
- **1 million cycle rating**
- **Full-width vision panel** greatly increases traffic safety and avoids collisions
- **Ideal for dividing** interior spaces or exterior openings where security isn't required
