MAXSPEED™

HIGH PERFORMANCE RUBBER DOOR
The toughest known high-cycle security door available!

DOOR FEATURES MS350 - MS1000

- High speed roll up door ideal for applications in: Warehouses, Manufacturing Facilities, Distribution Centers, Transportation, Transfer Stations, Mining, Waste
- Powder-coated finish on steel components
- Dual Loop Safety edge for uneven floors
- Simple, efficient springless engineering with only 5 moving parts providing reliability, and longevity
- Flexible curtain releases from guides upon accidental impact with breakaway system
- High tension curtain withstands high wind loads

our rubber is of the highest quality and durability, which is why we stand behind it with a lifetime guarantee.

- **Fast operating speeds reduces air infiltration** which leads to reduced energy costs and improved employee safety
- **Increased productivity and traffic flow** due to quick acting door functionality
- **Impactable design reduces maintenance and repair costs** and downtime from damaged doors
- **Springless operation reduces maintenance and repair costs** and eliminates safety concerns associated with springs
- **1 million cycle rating compared to a traditional sectional or rolling steel door** providing only 10k cycles leads to a significantly higher product life

TECHNICAL SPECIFICATIONS

OPENING SPEED	MS350 48" per second, MS1000 21" per second
CLOSING SPEED	50% of opening speed
MAX SIZE	40' x 30'
DRIVE	Direct Drive VFD
CURTAIN	RhinoMax™ Rubber
GUIDE WIDTH	5"
CONTROL PANEL	NEMA-4 UL-rated
AVAILABLE CURTAIN COLORS	Black (standard) / Blue / Gray (optional)
SAFETY DEVICES	Photo Eye, Electric Safety Reversing Edge, Drive Brake

OPTIONS

MECHANICAL	Hoods, Vision, 2" High Visibility Stripes
ELECTRICAL	Motor Cable Sets
SAFETY DEVICES	Light Curtain Wireless Safety Reversing Edge Presence Sensor
ACTIVATION DEVICES	Motion Sensors Pull Cord Push Button Remotes Floor Loops
