

COMPANY PROFILE

About Lindsay Precast

For more than 50 years, Lindsay Precast has been North America's premier concrete manufacturer specializing in precast concrete products. Since the mid 1990s, we've sharpened our strategic focus to provide the experience and know-how to deliver even greater value to our customers including state and municipal government entities, banks, utility companies, renewable energy companies and our military.

- Application:** Manufacturer
- Replaced:** Sectional Insulated Overhead Doors
- Problem:** Having over 25 Sectional Doors on location, every door has been impacted and the repair cost were starting to escalate
- Solution:** MaxPower2™ by PerformMax Global

We are the family-owned, U.S.-based concrete manufacturer with the most robust line of precast products in the business today.

With operations strategically located in Ohio, Colorado, Florida and North Carolina, Lindsay Precast is the precast concrete manufacturer you can trust whether you're in the north, south, east or west.

“When Performax Global first showed us the Mobil Showroom, I was sold on the impactable features and how the door resets. I was surprised after the installation, to see how fast the doors operated compared to the rest of the sectional doors.”

MIKE HOFFMAN
VICE-PRESIDENT | LINDSAY PRECAST
