CORPORATE: 484.840.8500

5 CROZERVILLE ROAD ASTON, PA 19014

# MAXCOOL™

INSULATED CURTAIN WITHSTANDS COLD TEMPERATURES

## BENEFITS

**Fast operating speeds** reduce cold air loss

**Insulated curtain** prevents moisture buildup from condensation

**Superior sealing capability** reduces energy costs for refrigeration

**Offers a high degree of thermal insulation** and avoids heat dispersion

**Direct Drive springless motor** requires minimal maintenance and provides safer operation

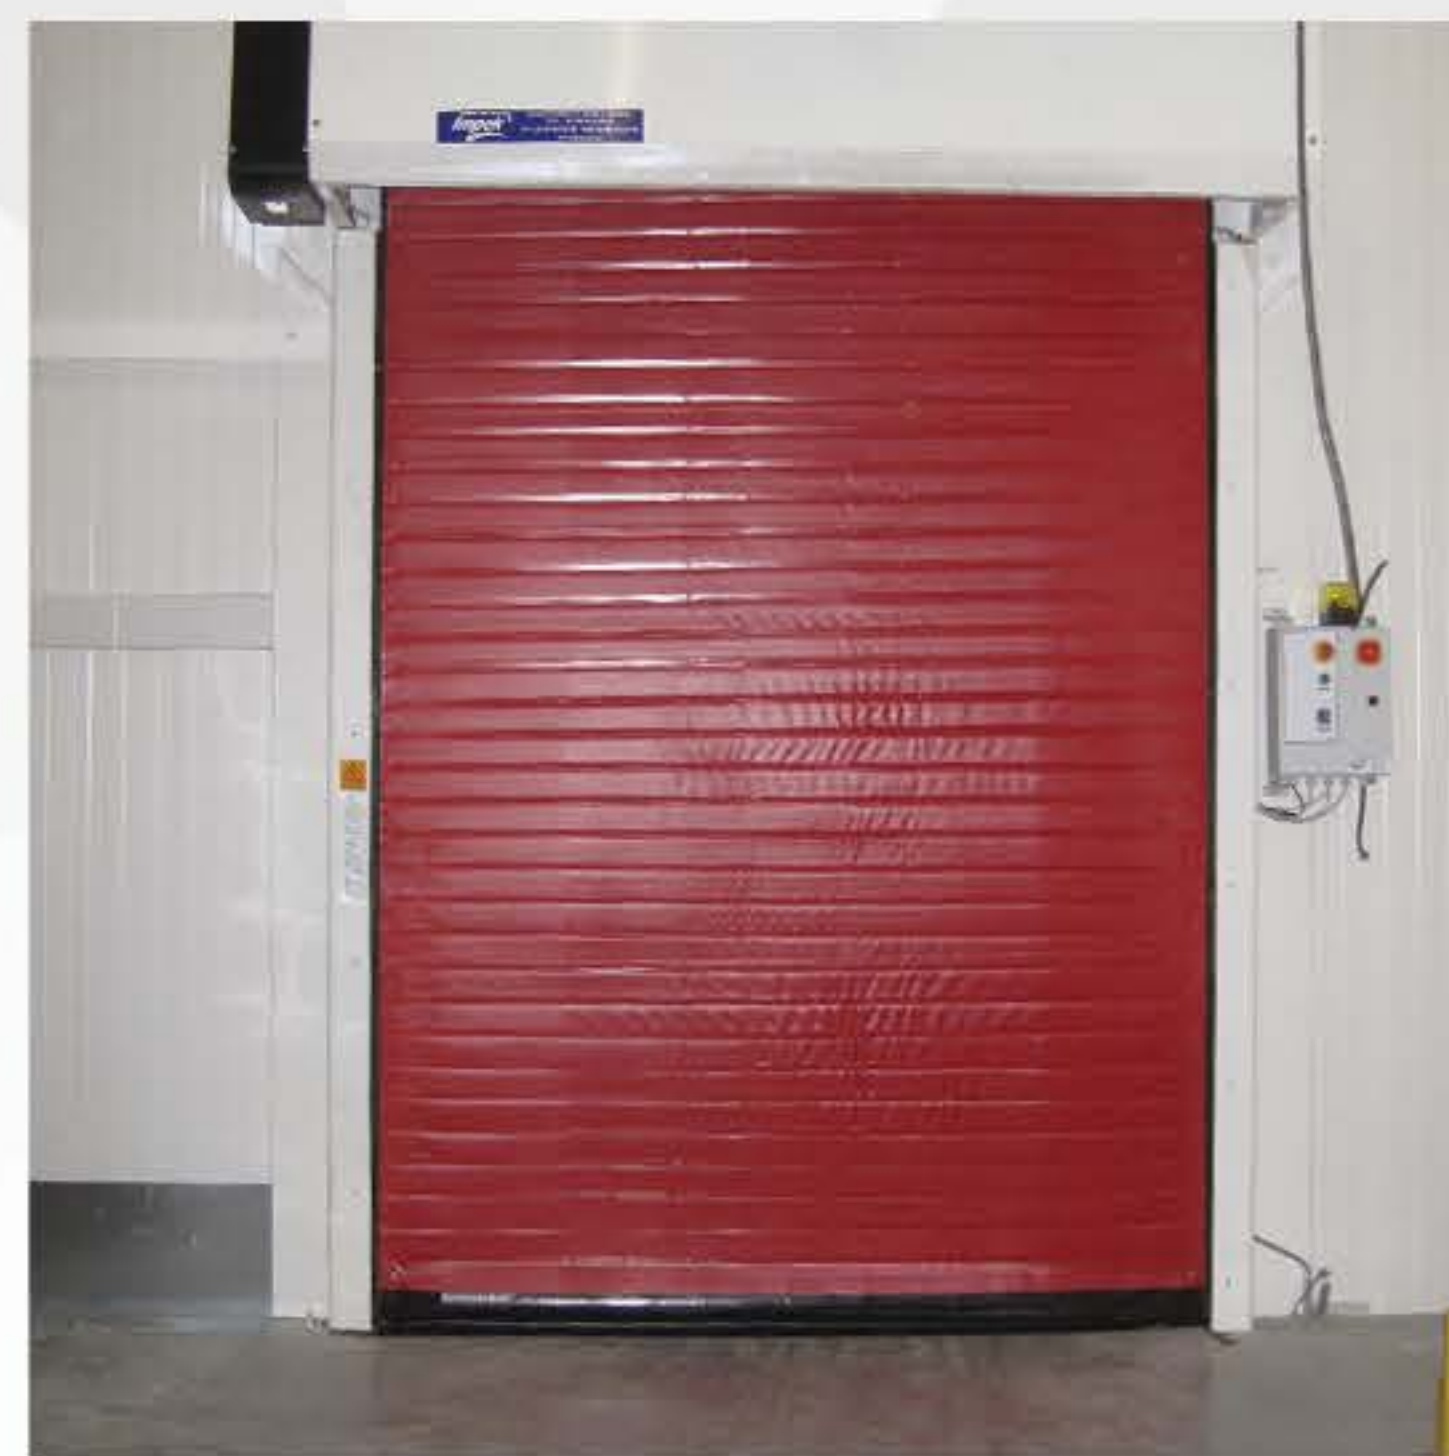

## FEATURES

Soft bottom edge and photo eye for pedestrian safety

Curtain structure consists of double fabric and internal polyurethane insulation

Galvanized steel frame with option for powder coating or stainless steel guides

Self repairing impactable curtain eliminates downtime due to damage

## GENERAL SPECIFICATIONS

\*EACH COLD STORAGE APPLICATION HAS DIFFERENT REQUIREMENTS. PLEASE CONSULT YOUR PERFORMAX GLOBAL SALES REPRESENTATIVE FOR MORE INFORMATION.

### OPENING SPEED

Up to 40" per second

### CLOSING SPEED

Up to 20" per second

### MAX SIZE

13' x 15'

### DRIVE

Direct Variable Frequency Drive

### CURTAIN

Double Fabric with internal polyurethane insulation

### CURTAIN THICKNESS

3/8"

### GUIDES

5" Galvanized Guides

Optional: Powder coated aluminum, AISI 304 stainless steel or AISI 316 stainless steel

### SAFETY DEVICES

Infrared Photo Eye, Resistive Wireless Safety Edge

### MECHANICAL

### ELECTRICAL

Hood & Motor Cover Standard

460 Volt / 3 Phase / 60 Hz

230 Volt / 3 Phase / 60 Hz

208 Volt / 3 Phase / 60 Hz

### OPERATING TEMPERATURE

As low as -20F

### OPTIONAL HEATING SYSTEMS

Mechanical Frame, Motor

### ACTIVATION DEVICE OPTIONS

Floor Loops, Motion Sensors, Pull Cord, Push Buttons

### CURTAIN COLORS

Orange Standard; Other Colors Available Upon Request

### APPLICATIONS

Food & Beverage, Pharmaceuticals, Cold Storage
